**May 2014**

**This report was prepared by the North Carolina Board of Nursing**

**North Carolina Trends in Nursing Education: 2009-2013**  
**May 2014**  
**Executive Summary**

This report examines characteristics of the nursing student population and the programs in which those students are enrolled in North Carolina. The charts and data tables are based on information provided by all pre-licensure nursing education programs to the North Carolina Board of Nursing (NCBON) each year during the month of October. The nursing education pipeline data will contribute to the analysis of how well current workforce needs are being met, as well as determination of what new policies might be needed to ensure adequate future nursing resources.

Each page of the report contains a brief summary statement explaining the table/graph. Nursing education continues to be competitive in NC, with nursing remaining as one of the highest sought out professions. The NCBON has jurisdiction over pre-licensure nursing education programs and the explanatory comments in this report are limited to the pre-licensure programs.

The post-licensure RN-BSN program statistics are included in the report for general information purposes only. Because the NCBON does not have jurisdiction over post-licensure programs and they are not required to complete the annual report, the RN-BSN statistics are not reliable and may vary significantly.

Consistent with our strategic initiative to enhance the Board's proactive leadership in public protection by facilitating innovations in education and practice that promote a competent nursing workforce, we continue to collect and report annual supply data for nursing employers and other interested parties.

Questions about the information in this report can be directed to Dr. Crystal Harris, Education Manager, at [charris@ncbon.com](mailto:charris@ncbon.com).

## **DEFINITIONS**

**Fall Term Census Date:** October 1<sup>st</sup> of current year.

**Reporting Period:** The most recently completed 12-month reporting period which may be the academic year defined as fall, spring, and summer semesters or terms.

*Example:* The data used for the Reporting Period in the NC BON Education Annual Report will be Fall 2012, Spring 2013, and Summer 2013.

**Qualified Applicants:** A count of the individuals who submitted complete applications on time and who met all institutional requirements for formal admission to the nursing education program during the Reporting Period.

**Admitted Applicants:** A count of the individuals who received official notice from the program that they were invited to begin the nursing education program during the Reporting Period.

**New Enrollees:** A count of the Admitted Applicants who subsequently enrolled for the first time in the nursing education program during the Reporting Period. This count should include only individuals who were still enrolled in a nursing course after the first two weeks of class.

**Total Student Enrollment:** A count of the number of students enrolled on the Fall Term Census Date which is October 1. Include students at all points of the program's curriculum sequence, including newly enrolled, continuing, and students in their final semester or year.

**Graduates:** A count of the number of students who successfully completed the program requirements and were formally awarded the degree or diploma during the Reporting Period.

**Faculty Vacancy:** A vacant position for a faculty member that is being actively recruited as of the Fall Term Census Date which is October 1.

**Full-time Faculty:** Those members of the instructional, administrative, or research staff of the nursing academic unit who are employed full-time as defined by the institution, hold academic rank, carry the full scope of faculty responsibility (e.g., teaching, advisement, committee work), and receive the rights and privileges associated with full-time employment.

**Part-time Faculty:** Those members of the instructional, administrative, or research staff of the nursing academic unit who are employed part-time as defined by the institution, may or may not hold academic rank, and may or may not carry responsibility for a specific area (e.g., adjunct, clinical instructor).

In NC 15,891 applicants were qualified to attend pre-licensure nursing education programs, 8444 were accepted for admission, but only 7142 (45%) were enrolled as new students during the 2012-2013 academic year. The data includes the following pre-licensure programs:

- Bachelor of Science in Nursing (BSN)
- Accelerated Bachelor of Science in Nursing (ABSN)
- Diploma-Registered Nurse (Dip-RN)
- Associate Degree in Nursing (ADN) or Associate Science in Nursing (ASN)
- Diploma-Practical Nurse (Dip-PN)

<b>2013</b>	6172	2835	364	275	1389	0	1710

The 2012-2013 academic year total enrollment numbers are consistent with previous years, except for 2012. During the 2012 reporting period the annual report was revised, and possibly numbers were slightly inflated due to misinterpretation of questions. In comparing 2011 and 2013, the most growth occurred in the BSN, ABSN, and the ADN/ASN programs.
