AUTHORITY: North Carolina Board of Nursing; [GASB Statement No. 54](#)

Policy:

The purpose of the operating reserve policy is to ensure organizational and operational stability at all times. The operating reserve will provide an internal source of funds to:

Enhance flexibility to invest in new programs, expand existing services, replace or improve capital assets, expand credit opportunities and permit favorable financing for organizational growth and expansion, and provide funds in the event of an emergency or other unforeseen event.

Fund balance is classified in the following categories based on the extent to which limitations are placed on the use of the funds:

- A. Nonspendable Net Assets are amounts that cannot be spent because of their form, such as fixed assets
- B. Restricted Net Assets represents the portion of the fund balance that reflects resources that are restricted for a specific future use by an external source, i.e. grant awards for a special project. This restriction can only be changed by the providers of the funds.
- C. Unrestricted Net Assets is subdivided into the following categories:
 1. Committed Funds – the portion of the fund balance that reflects resources that are subject to internal limitations for clearly identified purposes, i.e. to fund services in a future period where formal agreements exist.
 2. Designated Funds – the portion of the fund balance that indicates the *intended* uses of the resources in a future period, i.e. replacement of equipment.
 3. Undesignated Funds – the portion of the fund balance that represents resources in excess of the above described categories. These funds are available for one-time budget shortfalls, to replenish the designated fund should it fall below the target level or for any other purpose as approved by the Board.

Unrestricted Net Asset Level

The target minimum unrestricted net asset level is equal to ~~25%~~ 50% (~~three~~ six months of average operating expenses) of annual operating expenditures, less committed funds, and will be funded with surplus operating funds. This will provide sufficient cash flow for those pre-planned special projects or unforeseen financial emergencies or shortfalls, which may require a large, nonrecurring outlay of funds. Should unrestricted net assets fall below the ~~25%~~ 50% targeted level the fund will be replenished subject to fund availability. The Finance Committee will make recommendations to the Board to replenish the unrestricted net assets to the target minimum level, if required.

Use of Designated/Undesignated Funds

The Executive Director shall approve the use of designated funds and assure that funds are expended for the purpose intended. Should the need arise, the Executive Director may reallocate designated funds between categories in consultation with the Chair of the Finance Committee.

Monitoring and Reporting

The unrestricted net asset balance will be reviewed and adjusted based on cash flow needs for internal operations. The Executive Director will review the status of the fund balance on a monthly basis. The Finance Committee will review the statement of net position at each of its regularly scheduled meetings.

EDUCATION CONSULTANT'S REPORT

Summary Report: Catawba College, Salisbury, NC
Feasibility Study to Establish BSN Program

21 NCAC 36.0302 Establishment of a Nursing Program - Initial Approval

Catawba College submitted an Application to Establish a Bachelor of Science in Nursing Program prepared by Raquel Ingram PhD, RN, Program Director. The application was received in the Board of Nursing office in October 2016, and included information to support the establishment of a Bachelor of Science in Nursing Program. The proposed program for nursing will be a five semester program which includes one summer session between the junior and senior year. The Catawba College BSN will require 124 total credit hours; 64 credit hours of non-nursing and 60 nursing credit hours. The college proposes to admit a maximum total enrollment of 50 students to the nursing program. The proposed date for admission to the nursing courses is August 2017. Graduation of the first class is scheduled to occur May 2019. The proposed program would be physically located on the Catawba College campus in Salisbury.

The application demonstrates evidence of the proposed student population, projected student enrollment, evidence of learning resources to implement and maintain the program, and financial resources adequate to begin and maintain the program. The current physical facilities are adequate to support the program needs for both students and faculty, until the designated building is complete.

- Catawba College has authority for degree granting from the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC).
- Raquel Ingram, Program Director, is qualified to fulfill the role of Program Director for Catawba College. The plan is for up to 8 full-time and additional part-time faculty, as needed to provide adequate instruction for the students enrolled. Position descriptions submitted were consistent with the Board of Nursing Rules and Regulations.
- The application includes a proposed total curriculum with program philosophy statement; program objectives; course objectives; course descriptions; course syllabi; written plan to total program evaluation; IOM competencies; focused client care experience; student policies; program director vitae; and agreements with clinical agencies.
- A budget was submitted and reflects Catawba College's commitment for adequate funding to establish and maintain this program.
- Support services for admission, financial, library, and secretarial aspects of the program are available through existing Catawba College entities as described are adequate to support the proposed program.

Provided below are the proposed clinical agencies that indicate approval for utilization by the proposed program. Written indications from the nurse executive or designees from each of the agencies that the clinical resources would be available for utilization by the proposed program were included in the application or received via mail at the NC Board of Nursing.

Clinical Agency Resources
Big Elm Rehabilitation and Living Centers
Iredell Medical Center
The Laurels of Salisbury
Liberty Commons Nursing & Rehab Center
Magnolia Estates Skilled Care Facility
Novant Health
Salisbury Center
Trinity Oaks
Wake Forest Baptist (Lexington Medical Center)

There were no recommendations as a result of the survey.

RECOMMENDED BOARD ACTION:

That Catawba College be granted initial approval for a Bachelor of Science in Nursing program and approval for maximum total enrollment for 50 students to begin August 2017.
