

A Position Statement does not carry the force and effect of law and rules but is adopted by the Board as a means of providing direction to licensees who seek to engage in safe nursing practice. Board Position Statements address issues of concern to the Board relevant to protection of the public and are reviewed regularly for relevance and accuracy to current practice, the Nursing Practice Act, and Board Administrative Code Rules.

By law, the scopes of practice for the registered nurse (RN) and the license practical nurse (LPN) differ. The RN functions at an independent level while the LPN functions at a dependent level. This chart provides a snapshot comparison. For more information, please refer to the NCBON’s [RN Scope of Practice -- Clarification Position Statement](#) and the [LPN Scope of Practice – Clarification Position Statement](#) available on the North Carolina Board of Nursing’s website (www.ncbon.com) under Practice – Position Statements.

Components of Nursing Practice	RN Scope of Practice <i>Independent role</i>	LPN Scope of Practice <i>Dependent role</i>
