# North Carolina Trends in Nursing Education: 2013 – 2018

February 2019

## Executive Summary

This report examines characteristics of the nursing student population and the programs in which those students are enrolled in North Carolina. The charts and data tables are based on information provided by **126 pre-licensure nursing education programs** to the North Carolina Board of Nursing (NCBON) each year during the month of October. The nursing education pipeline data will contribute to the analysis of how well current workforce needs are being met, as well as determination of what new policies might be needed to ensure adequate future nursing resources.

Each page of the report contains a brief summary statement explaining the table/graph. Nursing education continues to be competitive in NC, with nursing remaining as one of the highest sought out professions. The NCBON has jurisdiction over pre-licensure nursing education programs and the explanatory comments in this report are limited to the pre-licensure programs.

Consistent with our strategic initiative to advance best practices in nursing regulation by facilitating innovations in education and practice, we continue to collect and report annual supply data for nursing employers and other interested parties.

Questions about the information in this report can be directed to Dr. Crystal Tillman, Director – Education and Practice, at [ctillman@ncbon.com](mailto:ctillman@ncbon.com).

## **DEFINITIONS**

**Admitted Applicants:** A count of the individuals who received official notice from the program that they had met the requirements for admission to the program and were invited to begin the nursing education program during the Reporting Period.

**Current Student Enrollment:** A count of the number of nursing students enrolled on the Fall Term Census Date which is October 1. Include students at all points of the nursing program's curriculum sequence. This is a onetime snapshot of all current students taking nursing courses at any level. Do not include students taking a leave of absence.

**Faculty Vacancy:** A vacant position for a faculty member that is being actively recruited as of the Fall Term Census Date which is October 1.

**Fall Term Census Date:** October 1<sup>st</sup> of current year.

**Full-time Faculty:** Those members of the instructional, administrative, or research staff of the nursing academic unit who are employed full-time as defined by the institution, hold academic rank, carry the full scope of faculty responsibility (e.g., teaching, advisement, committee work), and receive the rights and privileges associated with full-time employment.

**Graduates:** A count of the number of students who successfully completed the program requirements and were verified by the Program Director during the Reporting Period.

**New Applicants:** A count of the Admitted Applicants who subsequently enrolled for the first time in the pre-licensure nursing education program during the Reporting Period. This count should include only individuals who were still enrolled in a nursing course after the first two weeks of class.

**Part-time Faculty:** Those members of the instructional, administrative, or research staff of the nursing academic unit who are employed part-time as defined by the institution, may or may not hold academic rank, and may or may not carry responsibility for a specific area (e.g., adjunct, clinical instructor).

**Qualified Applicants:** A count of the individuals who submitted complete applications on time and who met all institutional requirements for formal admission to the nursing education program during the Reporting Period.

**Reporting Period:** The most recently completed 12-month reporting period which may be the academic year defined as fall, spring, and summer semesters or terms.

*Example:* The data used for the 2017-2018 Reporting Period in the NCBON Education Annual Report will be Fall 2017, Spring 2018, and Summer 2018.

<b>Total</b>	<b>114</b>	<b>75</b>	<b>26</b>	<b>11</b>	<b>8</b>	<b>15</b>

In 2018, 114 of the 249 total faculty vacancies (46%) are in the medical/surgical practice specialty. In 2017 the medical/surgical practice category also had the most vacancies.

### Accreditation by Program Type as of October 1, 2018

ABSN	BSN	ADN/ASN	Dip-RN	Dip-LPN
2	24	24	1	8

This chart details national nursing accreditation. National nursing accreditation is optional in NC but strongly encouraged for quality purposes.

In NC, **59 out of 126 (47%)** of pre-licensure nursing programs are nationally accredited. The two ABSN programs in the chart above do not offer a generic BSN degree. Five additional universities offer the ABSN option in addition to their generic BSN degree option and are therefore included in the BSN section of the chart. To enroll in an ABSN program, the student must have a previous bachelor's degree.

ADN/ASN	BSN
413	16

During the 2017-2018 academic year, **429 LPNs** returned to complete their ADN/ASN or BSN degree to become an RN. The number is consistent with last year's data.
